

# Simpson Preset Counter Installation Instructions

Feb. 26, 2015

1. Position counter on right hand oil tank and clamp in place as shown below.

2. Run the wires to the disconnect box on the Automatic Sandblaster as shown below. Refer to the "Wiring Diagram for Model J Automatic Sandblaster". You are installing the "Optional Counter". Connect the wires as shown in the diagram.

3. Connect the Red, White, and Green wires from the Electric Quick Shutoff Valve to the same color wires inside the Preset Counter box with wire nuts.
